## EDUCATION

- SANGAM UNIVERSITY, BHILWARA**  
Master of Computer Applications  
6.91 CGPA | 2017-2020
- MDS UNIVERSITY, AJMER**  
Bachelor of Computer Applications  
61% | 2014-2017
- RBSE BOARD — Senior Secondary**  
2013-2014
- RBSE BOARD — Secondary**  
2011-2012

## TECHNICAL SKILLS

- Programming Languages:** PHP, SQL, JavaScript, Dart, C / C++, Java (Basic)
- Web Development:** HTML5, CSS3, Bootstrap, jQuery, AJAX, React.js
- Backend & API:** PHP (OOP + MVC), RESTful APIs, Node.js (Basic)
- Databases:** MySQL, SQL Server, IBM DB2, Firebase
- Mobile Development:** Flutter, Android Studio
- Tools & Platforms:** GitHub, VS Code, XAMPP, Postman, Adobe Photoshop, Canva, MS Office

## CERTIFICATIONS

- Certified Advance PHP
- Android Development
- Received a Certificate of Appreciation from TT&BRU, Northern Railway, Ministry of Railways for outstanding contributions to Railway Board consultancy projects.

# AMAN JAIN

## FULL STACK DEVELOPER

## PROFILE

Professional with 6+ years of experience in Management Consulting, Data Analysis, Business Analysis, and Full Stack Software Development. Currently working as a Senior Associate (Consultant & Data Analyst) at Nangia & Co. LLP, supporting Railway Board projects through TT&BRU. Experienced in commercial studies, business research, data analysis, stakeholder management, report writing, and digital transformation initiatives. Previously developed enterprise web and mobile applications using PHP, React.js, Flutter, MySQL, SQL Server, and REST APIs. Skilled at combining business understanding with technology to deliver practical, data-driven solutions.

## JOB EXPERIENCE

### Senior Associate – Consultant & Data Analyst Nov 2025 - Present *Nangia & Co. LLP / Noida*

- Working as part of the Project Management Unit (PMU) delivering strategic consultancy assignments for Indian Railways.
- Executing studies on Parcel Office Upgradation, Freight Market Development, Logistics & Supply Chain Optimization, Mechanization & Digitalization of Goods Sheds, Policy Reforms, and Distance Rationalization.
- Performing market research, stakeholder consultations, field surveys, data analysis, feasibility assessments, and preparing detailed reports with actionable recommendations.
- Collaborating with Railway Board officials, Zonal Railways, industry stakeholders, and internal consulting teams to deliver high-impact projects.
- Preparing presentations, business cases, and policy recommendations to support strategic decision-making within Indian Railways.

### SENIOR EXECUTIVE April 2022 – Nov 2025 *RSWM Ltd., Kharigram / Gulabpura*

- Designed and developed 30+ enterprise web and mobile applications for HR, Audit, Production, Marketing and IT departments.
- Created RESTful APIs to connect systems and reduce manual work by 20%.
- Automated reports for MIS, HR, and Audit, saving 15–20 hours/week.
- Improved performance by optimizing SQL queries and legacy systems.
- Developed mobile apps like Customer App, Handbook, and Jawahar Foundation App.
- Integrated systems with SQL Server, IBM DB2, and Lotus Notes.
- Also contributed to UI design and internal branding using Photoshop.

### REACT DEVELOPER March 2021 - April 2022 *Metacaps IT Solutions / Jaipur*

- Developed dynamic React modules tailored to specific client business needs.
- Integrated various third-party APIs and ensured cross-browser compatibility.
- Implemented web security practices including SQL injection and XSS protection mechanisms.
- Conducted unit testing and rigorous debugging to ensure code stability.
- Migrated legacy PHP/HTML codebases to modern React.js front ends, reducing maintenance effort by 30%.
- Created reusable components and followed best practices for scalable design.
- Improved load times and rendering performance using React memoization techniques.
- Collaborated closely with back-end teams to define API specifications and error handling.

### LARAVEL DEVELOPER April 2020 - March 2021 *Travellights Solution / Udaipur*

- Built secure web applications using Laravel, Bootstrap, jQuery and MySQL with a focus on modular design and scalability.
- Designed and developed custom admin panels and dashboards for internal teams.
- Created RESTful APIs for mobile/web app communication.
- Implemented role-based access control (RBAC) and user management features.
- Worked on cross-browser testing and debugging to ensure compatibility.

## KEY STRENGTHS

- Self-motivated and detail-oriented in all phases of development
- Strong analytical and problem-solving skills for debugging and optimization
- Fast learner with adaptability to new tools, frameworks, and technologies
- Excellent multitasking and time management abilities under tight deadlines
- Effective communicator with cross-functional teams and business users
- Forward-thinking approach with the ability to evaluate and implement new features
- Strong team player with leadership qualities when needed
- Focused and consistent in delivering high-quality, maintainable code
- Experienced in managing multiple internal projects in fast-paced environments
- Strong collaboration skills to align technical execution with business goals

## KEY DUTIES

- Developed 10+ internal web and mobile applications using PHP, Flutter, and MySQL.
- Built responsive front-end interfaces using HTML5, CSS3, Bootstrap & JavaScript.
- Designed and consumed RESTful APIs, integrated with Flutter & Android.
- Created dynamic dashboards and user/admin panels for HR, Audit, IT, and Production systems.
- Automated data reporting for MIS, HR, & Audit departments.
- Designed and optimized MySQL and SQL Server databases, including stored procedures and views.
- Created Excel-based reporting tools using ODBC & VB6 to pull data from M3 systems.
- Maintained and enhanced legacy applications built with VB6, ASP, and SQL Server 2000/2003/2005.
- Provided user training and documentation for newly developed tools.
- Integrated third-party platforms like IBM DB2, Lotus Notes, and Active Directory with in-house systems.
- Managed the full SDLC: from requirement gathering to deployment and post-deployment support.

## MAJOR PROJECTS

- **TT&BRU KNOWLEDGE MANAGEMENT PORTAL** Nangia & Co LLP
  - Developed a centralized web-based Knowledge Management Portal using **React.js**, **PHP REST APIs**, and **MySQL** for managing organizational knowledge assets.
  - Implemented secure role-based authentication, document upload, approval workflow, and administrator dashboard for content governance.
  - Automated email notifications to administrators upon document submission and to contributors after approval or rejection, ensuring complete workflow transparency.
  - Supported management of multiple file formats including PDF, Word, PowerPoint, Excel, images, videos, and technical reports within a unified repository.
- **APPRAISAL MANAGEMENT SYSTEM** RSWM Ltd.
  - Developed and maintained a structured employee appraisal system supporting multi-level reviews (L1 to L5).
  - Enabled self-assessment for senior staff with KRA, JD, and achievement uploads.
  - Implemented role-based review flow from Reporting Manager to HOD to COO/Business Head for transparent plant-wise and business-wise evaluation.
  - Ensured a policy-driven and auditable performance management workflow using role hierarchies and sequential approvals.
- **VISITOR MANAGEMENT SYSTEM** RSWM Ltd.
  - Designed and implemented a secure check-in/check-out system for multi-plant visitor tracking with photo capture and gatekeeper exit logging.
  - Automated host notifications via email and enabled admin access to daily, plant-wise reports through a centralized web portal.
  - Improved visitor handling efficiency and security through structured data capture and role-based access.
- **INDRA RASOI SYSTEM** RSWM Ltd.
  - Developed a mobile and web-based platform to manage beneficiary registration, meal tracking (lunch/dinner), and photo capture for quality assurance.
  - Enabled real-time monitoring and analytics via the web portal for administrators to ensure hygiene compliance and streamline welfare distribution.
  - Improved operational transparency and reporting for government-backed food service initiatives.
- **EMPLOYEE HANDBOOK APP** RSWM Ltd.
  - Built a digital onboarding solution for newly joined TGT employees at RSWM Ltd (LNJ Group), featuring company policies, structure, responsibilities, and CSR initiatives.
  - Integrated an interactive Whiteboard for employee engagement and feedback sharing.
  - Developed a web portal for admin-level user management, feedback tracking, and Whiteboard submission reporting.
- **ONLINE EXAMINATION SYSTEM** RSWM Ltd.
  - A multi-college online examination system with admin control.
  - Managed institutions, student streams, and question banks in portal.
  - Enabled real-time exam monitoring and submission across multiple locations.
  - Implemented auto-shortlisting logic for candidates scoring  $\geq 40\%$ .
  - Exported college-wise results in Excel/PDF for streamlined recruitment.
  - Improved transparency and efficiency in campus hiring processes.
- **INTRANET SYSTEM** RSWM Ltd.
  - Developed a comprehensive self-service portal enabling employees to access salary slips, attendance, leave, loans, PF, LTA, IT details, and company policies.
  - Implemented workflows for correction requests, HR/HOD approvals, internal complaints, and service requests.
  - Enhanced employee engagement through internal activity galleries (photo/video) and centralized access to organizational information and certificates.
- **TRAINEE RECORD SYSTEM** RSWM Ltd.
  - Developed a system to manage trainee assignments across plants and departments, enabling supervisors to guide individuals or groups.
  - Facilitated project topic allocation, daily work log tracking, and final project presentation uploads for structured training oversight.
  - Improved trainee progress visibility and streamlined coordination between supervisors and trainees.

## OTHER PROJECTS

### We Are Here (Native App & Web):

A native mobile and web-based task and communication platform for the IT department to streamline internal workflows.

### Online Engineering Exam System:

Built a secure online examination portal for the Engineering Department, supporting assessments & evaluation.

### DCU Portal:

A centralized platform for tracking departmental cost utilization, improving budgeting accuracy and departmental transparency.

### Dyehouse Management System:

Developed a tool for tracking dyeing processes, batch information, and workflow scheduling in the unit.

### Lottery System (31st Dec & Navratra):

A transparent and randomized employee lottery platform for events and festive occasions.

### Automated Reporting System:

Developed and scheduled 10+ automated reports using PHP and Lotus Notes mail services for HR, HODs, and top management. Key reports include:

- HJ21 MIS & Onroll Report
- IA Entry Error Report List
- JV approval delay more than 3 days Report
- Payment More than Rs. 25,000 from Plant Report
- Pending PR Details Report
- Following unapproved PR request in Cost Center Report
- Report of mixing qty v/s RF production Report
- Voucher in error - GLS037/47 Report
- Yarn Library Details Report
- Budget Management Report
- Unapproved lot in packing Reports

### Design Work:

Created digital assets including letterheads, internal communication templates, and event invitations using Adobe Photoshop.

### Metacaps Solution (React.js):

Developed a responsive, component-based web application using React.js to showcase Metacaps' nutraceutical products and solutions. Focused on clean UI, routing, and scalability for a modern user experience.

## MAJOR PROJECTS (CONTINUED)

### LAPDIP MANAGEMENT SYSTEM

RSWM Ltd.

- Designed and implemented a collaborative system to manage customer lapdip sample requests between marketing and plant teams.
- Automated end-to-end workflow from request logging, plant-level production, sample dispatch, to customer feedback tracking.
- Improved traceability and coordination across departments, ensuring timely and accurate sample processing.

### EXCURSIONS TOUR PORTAL

RSWM Ltd.

- Developed a centralized platform for managing employee and family group tours across destinations.
- Enabled user registration with detailed personal and family info including Aadhaar card and accommodation preferences.
- Streamlined backend coordination of travel, lodging, and meal planning to ensure a seamless 7-day experience for all participants.

### IT ASSETS MANAGEMENT SYSTEM

RSWM Ltd.

- Built a centralized system to track organizational IT assets, including allocation, ownership, location, and maintenance history.
- Implemented unique asset tagging and service call categorization (primitive/non-primitive) to streamline request resolution and auditing.

### TRAINING MANAGEMENT SYSTEM

RSWM Ltd.

- Developed a centralized platform for managing departmental training programs with modules for training type, date, subject, trainer details, and duration.
- Enabled digital reporting for internal reviews and external audits, supporting compliance and organizational skill development initiatives.

### SELF LEARNING TOOLS PORTAL

RSWM Ltd.

- Created a centralized learning platform for employees to upload, access, and manage training materials across the organization.
- Integrated Active Directory authentication for secure access and user identity management.
- Implemented an IT-admin approval workflow to ensure content quality and compliance, fostering continuous learning and knowledge sharing.

### WORKER'S HELPDESK SYSTEM

RSWM Ltd.

- A digital platform for workers to view daily attendance, productive hours, leave balance, and personal details like employee code and PAN, enabling real-time attendance and performance metrics.
- Supported improved alignment between employees and management through self-service data visibility.

### TIME OFFICE ATTENDANCE MANAGEMENT

RSWM Ltd.

- Built a workflow-based system for managing worker attendance statuses (PP, AA, RR), enabling plant officers to record and cross-verify.
- Implemented a two-level approval process where final confirmation is handled by the Time Officer for accurate record-keeping.
- Improved reliability and accountability in attendance data through structured verification and submission flow.

### E-COMMERCE APP

RSWM Ltd.

- A cross-platform e-commerce mobile app using Flutter for showcasing and selling yarn, denim, and knit catalogs to new customers.
- Integrated real-time data access, catalog browsing, and user interaction.
- Enabled seamless digital engagement and streamlined product discovery for customers in the textile industry.

### INTERNAL AUDIT MANAGEMENT SYSTEM

RSWM Ltd.

- A platform to manage internal audit findings, departmental feedback, and resolution tracking.
- Enabled auditors to log audit points per department; HODs were assigned responsibility for timely resolution.
- Implemented a review mechanism for Commercial Heads to verify and close audit points, ensuring accountability and compliance across units.
